

## **ISSR Sleep Clinic Training Centre / Accreditation**

This program has been designed to recognize sleep disorders as major public health concerns, and ensuring the highest standards of sleep medicine services is critical.

### **AIM / Objective of this program**

The ISSR accreditation program has been designed to:

- ✓ Ensure adherence to national and international standards of care
- ✓ Recognize clinics that provide high-quality diagnostic and therapeutic services
- ✓ Build public and physician confidence in accredited sleep facilities centres
- ✓ Facilitate continuous quality improvement and education

### **Benefits of Accreditation:**

- National recognition by ISSR
- Listing on the ISSR official website as an accredited centre
- Access to ISSR educational resources and workshops
- Enhanced trust among patients, referring doctors, and healthcare partners

### **How to Apply:**

We invite your clinic to apply for accreditation. You have to submit the following documents as shared on our website:

- ISSR Accreditation Checklist
- Sample consent forms and protocols
- Application instructions

Our accreditation committee will provide guidance throughout the process, including site assessment and feedback on any improvements needed.

If you are interested, please let us know at your earliest convenience, and we will assist you in initiating the application process.
